

ESL @ JTB & ORE

Winter 2017

Carol Hughes

Our ESL Objective: Students will learn how to communicate in English through listening, speaking, writing and reading.

These skills are taught in different ways; real objects, drama, pictures, books, videos, field trips, and technology.

.....

We have enjoyed the holiday season at both JTB and ORE with Christmas programs, sing-a longs as well as a zumba night. Access Testing will begin Jan. 30th and continue through Feb. JTB is scheduled to test the first week of Feb. and ORE is scheduled the second and third week of Feb. Please try to have you child at school these days and be sure they are well rested. We will be testing in Listening, Speaking, Reading and Writing. The scores of these test help determine your child's language proficiency level, and any possible modifications they may qualify for on other school test like EOG's. Below is a list of some topics your child has studied this past winter in ESL class. It is a pleasure to work with your children.

Kindergarten

Senses
Beginning and Ending
sounds
Listening Skills
Word Families
Letter sounds
Writing
Composing sentences

First Grade

World Holidays
Author's topic
Main Idea
Supporting Details
Sequencing Voc.
Computer skills & terms
